

TIMED FENCE LIGHT

Monitor electric fence performance at a glance with the Nemtek Fence Light. Designed to provide a clear visual indication of fence voltage levels, this practical status indicator helps installers, property owners and security personnel quickly assess fence condition along the perimeter. By flashing at the same rate as the fence voltage, it supports improved system awareness and contributes to maintaining reliable electric fence operation.

Features:

- Dark grey fence light for galvanised and aluminium wire
- Blue fence light for stainless steel wire
- Visible from up to 1km at night and 100m during the day
- No batteries required - uses minimal power from the fence
- Highly visible LEDs allow for a 160-degree viewing angle. This allows the light to shine into the secure area only
- Can operate from 0.9kV to 12kV
- Can be used with most electric fence energizers

Specifications:

Material	Plastic and water tight compound
Steel wire connectors	Galvanised (Grey housing) Stainless Steel (Blue housing)
IP rating	IP67
Flashing Rates	1. Flashing normally rate over ~7.5kV 2. Flashing at 25% slower than normal between 7.5kV~3kV 3. Flashing at 50% slower than normal between 3kV~2.5kV 4. Flashing at 75% slower than normal when less than ~2.5kV

Stock Code	Description
SR-FL/TL/G	Grey Timed Fence light for galvanised and aluminium wire
SR-FL/TL/SS	Blue Timed Fence light for stainless steel wire
