

WARNING SIGN

Support safe and compliant electric fence installations with Nemtek Warning Signs. Designed to provide clear visual notification of electrified perimeter systems, these signage components help installers and property owners meet safety requirements while improving awareness along the fence line. Their practical mounting design allows for secure positioning across a wide range of fencing environments.

Features:

- IEC 60335-2-76 compliant design
- Double-sided
- Four quick-fit clips that fit on most diameter wires for quick installation and to prevent flapping and movement due to wind.
- Custom versions are available on request in both screen or pad print

Specifications:

Material UV stabilised plastic
 Size 200mm x 100mm
 Colour Yellow with black writing
